

Research on Women's Health Interest Group (R-WHIG) The University of North Carolina at Charlotte

Presents

FIRST ANNUAL STUDENT RESEARCH POSTER DAY

May 3, 2017 | 10-11:30 Am | CHHS 128

Undergraduate and graduate students are invited to submit abstracts related to their research or practice-based activities for the first annual Student Research Poster Day. This poster day will recognize the important work UNC Charlotte students do in women's research and be an early celebration of National Women's Health Week.

Students may submit abstracts related to women's health research (e.g. work related to a thesis, dissertation, independent study) or practice (e.g. work related to an internship, practicum). Both completed and in progress work are acceptable, provided that results will be available by May 3. Guidelines may be found at <https://goo.gl/qeQm5g>. One poster in each category will be awarded a "best poster" prize.

For questions/concerns, please contact
Dr. Larissa Huber at lrhuber@uncc.edu.
