Research on Women’s Health Interest Group (R-WHIG)
The University of North Carolina at Charlotte

Invites you to join us at the...

FIRST ANNUAL STUDENT RESEARCH POSTER DAY

May 3, 2017 | 10-11:30 am | CHHS 128

Students will be presenting posters related to their research or practice-based activities for the first annual Student Research Poster Day. This poster day will recognize the important work UNC Charlotte students do in women’s research and be an early celebration of National Women’s Health Week.

Posters will be related to women’s health research (e.g. work related to a thesis, dissertation, independent study) or practice (e.g. work related to an internship, practicum). Students will be available to speak with poster day guests and answer questions they may have regarding their research. Please come out and support the important work of these UNC Charlotte students!

*Light refreshments will be served.

For questions/concerns, please contact Dr. Larissa Huber at lrhuber@uncc.edu.
